BOOK SYNOPSIS

Authored by some of the most inspirational researchers in the field, *Literacy, Technology, and Diversity: Teaching for Success in Changing Times* provides a research-based blueprint for implementing pedagogical approaches that promote literacy engagement among low-income and minority students. Extensive case studies of classroom practice document how student diversity and technology can become catalysts for deeper learning. Instead of just pinpointing limitations in today's educational system, Jim Cummins, Kristin Brown and Dennis Sayers move beyond critique and provide powerful action plans to help you in your classroom.
